## Necessities

- FunCakes Special Edition Mix for Crunchy Caramel Cake
- FunCakes Bake Release Spray
- FunCakes Mix for Buttercream
- FunCakes Flavour Paste Caramel Toffee
- Callebaut Topping -Caramel-
- FunCakes Mini Fudge
- Wilton Cake Pan Countless Celebrations
- PME Cake Leveler
- Wilton Decorating tip 1A, 1M and 6B
- FunCakes Disposable Decorating Bags
- 760 grams of butter
- 350 grams of eggs (7 pieces)
- 370 ml of water
- Pinch of salt

Preparation method for 1 number. Note: the amount of baking mix and buttercream you need may vary per grade.

### **Step 1: Bake a Caramel cake**

Make sure all ingredients are at room temperature. Mix 800 grams of FunCakes mix for Crunchy Caramel Cake, 400 grams of butter, 350 grams of eggs and 70 ml of water in 4 minutes on low speed to a smooth batter. Spray the baking pan with baking spray and fill it 2/3 full with the batter. If you have batter left, you can, for example, bake cupcakes. Bake the cake for 70 minutes and after baking, put it on a cooling grid to let it cool. When it has cooled down, cut the cake into 2 slices with a cake leveler.

### **Step 2: Make Salted Caramel Buttercream**

Meanwhile prepare 300 gram FunCakes mix for Buttercream with 300 ml water. Beat the mixture with a whisk. Beat 360 g unsalted (cream) butter until creamy for about 5 minutes. Add the mixture in parts to the butter, always mixing completely before adding the next part. Mix everything into a smooth cream (approx. 10 minutes). Add the FunCakes Flavour Paste Caramel Toffee to taste. Add a pinch of salt. Divide the buttercream over 3 decorating bags with nozzles 1A, 1M and 6B.

### **Step 3: Decorating the cake**

Pipe round tufts of buttercream on the bottom cakes. Place the top cakes on top and pipe a variety of tufts on top with the decorating bags. Make sure the entire top is covered. Decorate the cake with caramel cookies, fudge cubes and caramel sauce.
