- Wilton Dowel Rods Plastic set/4
- Wilton Taartzaag / Cake Leveler -25cm-
- Patisse Cake Edge Side Scraper
- Dekofee Profi Brush 1

### **Step 1: Bake the red velvet cake**

Preheat the oven to 180°C (hot air oven 160°C) and grease the baking pans with baking spray. Prepare 500 grams of the FunCakes Mix for Red Velvet Cake with eggs, vegetable oil and water as indicated on the package. Divide the batter evenly between the two baking pans. Bake the red velvet cake for about 30-35 minutes, then immediately dump onto a cake rack to cool thoroughly.

### **Step 2: Make the enchanted cream**

Prepare 300 grams of the FunCakes Mix for Enchanted Cream with water and milk as indicated on the packaging. Then color 2/3 of the enchanted cream pink and 1/3 honey gold. Do this by mixing the edible food coloring through the enchanted cream. Haven't reached the desired color yet? You can always add more food coloring.

### **Step 3: Fill and stack the cake**

Cut both red velvet cakes in half with the cake leveler, fill and stack on top of each other with a thin layer of enchanted cream between the layers. From top to bottom, push 2 dowels into the cake and cut to size. Finally, spread the entire outside of the cake with a thin layer of pink enchanted cream.

### **Step 4: Make the fault line on the cake**

Mix the two different FunCakes sprinkles together, then gently press it against the center of the cake. Spread a thick layer of pink enchanted cream on top of the cake, above and below the edge of the sprinkles. Then place the cake on a turntable and pull the cake tight using the side scraper. Do this carefully and not with too much force, or you will scrape off the sprinkles.

### **Step 5: Decorate the fault line cake**

Put the honey gold enchanted cream in a piping bag with the #1M nozzle and pipe tufts on top of the cake. Then sprinkle the mixed sprinkles over the tufts. Finally, paint the edges of the fault line cake with the dark gold edible paint.

### **Step 6: Enjoy this delicious Fault Line Cake!**
