Step 1: Prepare the Rice Krispie treats

Place the Rice Krispie treats on a tray, half lined with parchment paper or a silicone mat.

Step 2: Colour the Deco Melts

Divide the white Deco Melts into two separate bowls and melt them as per the package instructions. Once fully melted, add a few drops of Colour Mill Lavender to one bowl and a few drops of Colour Mill Baby Pink to the other bowl. Mix until the colour is fully incorporated. Then, transfer each colour into a piping bag.

Step 3: Start decorating

Pipe the melted chocolate in a zigzag pattern over the Rice Krispies. Add the candy eyes. Repeat, alternating the colours for the Rice Krispies.

Step 4: Let the Rice Krispie treats set

Once they're all covered in chocolate, place the tray in the fridge for 5-10 minutes to let them harden completely.

Step 5: Enjoy these delicious Rice Krispie Treats for Halloween!
