This is a recipe for making donuts in the donutmaker.

Mix all dry ingredients in a large bowl. Add the remaining ingredients and mix everything well together until you have a smooth mash. The thickness of the batter should be like pancakes batter.

Fill the openings in the lower baking sheet with about 2 tablespoons of batter. Bake the doughnuts in approximately 3 to 5 minutes. To check if the donuts are ready, you can stick a cocktail spike in the middle. If it comes out dry, then the donuts are ready.

Dip to donuts after they have cooled down in the fondant glaze. Let the glaze get at little bit hard before you sprinkle some confetti over the donuts.
