## Step 1: Make the FunCakes Biscuit

Preheat the oven to 180°C. Grease the baking pan with baking spray.

Prepare 400 g of FunCakes Mix for Biscuit Deluxe as indicated on the packaging. Pour the batter into the baking pan. Bake the biscuit until lightly golden brown, for about 35-40 minutes. Turn it out onto a cooling rack and let it cool completely. Then bake another biscuit with the remaining 400 g of mix in the same way.

## Step 2: Make the FunCakes Buttercream

Prepare 300 g of FunCakes Swiss Meringue Buttercream according to the instructions on the packaging. If your mixing bowl is too small, you can prepare it in three batches and combine them later.

## Step 3: Stack the Cake

Use a cake leveler to cut both biscuits horizontally in half. Place the bottom layer of one biscuit on a

cake drum and spread a layer of buttercream on top. Add a layer of raspberries. Continue stacking all the layers this way, finishing with the bottom of the second biscuit on top. Spread a thin layer of buttercream around the outside of the cake and let it chill in the fridge.

#### **Step 4: Cover the Cake**

Knead the FunCakes Covering Paste until smooth. Roll it out to about 2 mm thick and cover the cake with it.

#### **Step 5: Color the Buttercream**

Take a tablespoon of the remaining buttercream and color it green using FunCakes Food Colour Gel Bright Green, as indicated on the packaging. The rest of the buttercream can be tinted ivory with the Honey Gold Color Gel, or you can leave it its natural shade.

#### **Step 6: Piping and Decorating**

Fill a piping bag with the green buttercream and use tip #352. Fill another piping bag with a large amount of buttercream and fit it with tip #4B, and another with tip #104. Divide the remaining buttercream between piping bags fitted with tips #022, #018, and #016.

Place the wide part of tip #104 against the cake (keeping it in contact) and pipe a ruffled border along the bottom edge with gentle back-and-forth movements. Pipe a decorative shell border on top of the ruffle using tip #4B. Then, use tip #022 to pipe a smaller shell border over the large one and press FunCakes Crispy Choco Metallic Gold Pearls into it at various points.

Using tip #018, pipe loops along the side of the cake. Pipe small stars with tip #016 onto the loops. Use tip #4B to connect the loops by piping small shell shapes in between. Beneath the loops, use tip #018 to pipe three small stars in a vertical row.

For the top edge of the cake, create a ruffled border with tip #104, then pipe a shell border on top with tip #4B. On the inner side of this shell border, use tip #022 to add a smaller shell border, pressing Metallic Gold Pearls in at random points and sprinkling FunCakes Gold Nonpareils over the top.

Add the pink flowers at the base of the connecting shells between the loops, then pipe small green leaves around the flowers using tip #352.

Tie small bows with the pink ribbon and gently press them into the cake as a finishing touch.
