### **Ingredients**

- 250 g Wilton Candy Melts® Light Cacao
- 100 g Wilton Candy Melts® White
- FunCakes Sugar Strands Mix 70 g

#### **Tools**

- Wilton Lollipop Sticks 15cm, pk/35
- Wilton Long Candles -White-
- Wilton Disposable Decorating Bags pk/12

#### Step 1: Prep

Insert the lollipop sticks into the marshmallows.

#### **Step 2: Melt the Candy Melts**

Melt the Choco Candy Melts in the microwave according to the instructions on the packaging. Dip the marshmallows into the melted chocolate and place them upright in a dummy or holder. Allow to set in the fridge.

#### **Step 3: Finish the pops**

Trim the candles slightly and place them into the holders. Carefully press a candle with holder into the top of each dipped marshmallow. Melt the White Candy Melts in the microwave as per the instructions and pour into a decorating bag. Snip off a small tip and pipe around the base of the candle, letting the chocolate drip slightly down the sides for a 'melting wax' effect. Immediately sprinkle with FunCakes Sugar Strands Mix and leave to set in the fridge again.

### **Step 4: Enjoy your Marshmallow Pops!**
