## **Step 1: Make the chocolate ganache**

Heat 400 ml of whipped cream in the microwave until it's just about to boil. Add 600 grams of chocolate melts and stir until you have a firm and glossy mass. Let it cool while stirring occasionally.

## **Step 2: Bake the cookies**

Preheat the oven to 180°C (convection oven 160°C). Prepare 250 grams of FunCakes Mix for Cookies as indicated on the packaging and roll it out on a work surface dusted with roll out powder to a thickness of 2 mm. Cut out leaf shapes from the dough and place them on a baking sheet lined with parchment paper. Bake the cookies for 10-12 minutes until golden brown and let them cool completely. After cooling, color the cookies with orange, red, and brown color powder using a brush.

## **Step 3: Bake the chocolate sponge**

Prepare 400 grams of FunCakes Mix for Choco Sponge Cake as indicated on the packaging. Grease the baking pans with bake and release spray and divide the batter between the two pans. Bake the chocolate sponge for about 30-35 minutes until done, then allow it to cool on a cooling rack after

baking.

#### **Step 4: Create the fondant pumpkins**

Knead the orange and ivory fondant well and create mini pumpkins. Use a flat brush to give the orange pumpkins color in the crevices with a mixture of orange and cherry red color powder. Color the ivory pumpkins with brown color powder. Use a small piece of green fondant to make the crowns and tendrils on the pumpkins.

#### **Step 5: Cut and fill the sponge cake**

Whip the cooled ganache in a mixer until it is smooth and fluffy. Cut both sponges into two layers with a cake leveler and apply a thin layer of ganache between the layers. Place the cake on the turntable and also apply a very thin layer of ganache all around. Use a spatula and side scraper for this. Make sure to save some ganache for decoration!

#### **Step 6: Decorate the cake with nonpareils**

Mix all 4 colors of nonpareils and sprinkle them on top of the cake, pressing gently against the upper part of the side. Place the cake in the refrigerator for 10 minutes to set.

#### **Step 7: Decorate the cake with ganache**

Put the remaining ganache in a piping bag and cut a small tip. Apply a thick layer of ganache to the bottom of the cake, stopping just above the lower part of the nonpareils. Smooth it gently with the side scraper, applying gentle pressure. Put the cake in the refrigerator for half an hour to set.

### **Step 8: Decorate the cake**

Create a paint by mixing the golden ginger sparkle dust with a bit of rejuvenator, and carefully paint the edge of the ganache gold. Attach the cookies and pumpkins on top of the cake using a small amount of ganache.

### **Step 9: Enjoy this delicious Autumn Fault Line Cake!**
