- The Baked Studio Dried Flower Box - Bunny Tails - Pink / White / Lilac
- PartyDeco Cake Toppers Butterflies 9 x 6.5 cm
- PME Plain Edge Extra Tall Side Scraper
- FMM Impression Mats 1 Brick wall/tree grain

## Step 1: Bake the biscuits

Prepare 330 g of FunCakes Biscuit Deluxe Mix according to the instructions on the package. Pour the batter into the Wilton Extra Deep Round Cake Pans and bake the cakes as indicated on the packaging. Remove the cakes from the oven and immediately turn them out onto a cooling rack to cool completely.

Once they have cooled, cut both biscuits horizontally twice using the Wilton cake saw. When stacking the layers, start and finish with the bottom of a biscuit to achieve a nice, smooth cake.

## Step 2: Preparing to assemble the cake

Cut a FunCakes cake board slightly smaller than the biscuit and cut or carve an opening in the center to fit the Wilton Dowel Rod through.

### **Step 3: Assembling and coating the cake**

Prepare 150 g of FunCakes Enchanted Cream® Mix according to the instructions on the package. Fill a piping bag with a Wilton #012 piping tip and some cream. Start by spreading a layer of cream on the bottom cake layer. On the second layer, pipe a border along the edge using the #012 tip and spread apricot jam inside the border. Repeat this process until all layers are filled. Somewhere in the middle, place the cake board to help distribute the weight. Push a dowel rod all the way through the center to the bottom of the cake and cut it to size. This prevents the layers from shifting. Coat the entire outside of the cake with a smooth layer of cream. Place the cake on the Wilton Basic Turntable and use the Wilton Comfort Grip Spatula for smoothing and the PME Plain Edge Extra Tall Side Scraper to achieve a clean, sharp finish.

### **Step 4: Decorating with fondant**

Take a small piece of brown and gray fondant and marble each with a bit of white fondant by not mixing them completely. Roll out a piece of brown fondant and use the FMM Impression Mats wood grain texture to imprint the surface. Cut out two small doors and attach them to the cake. Shape small balls from the marbled fondant pieces and flatten them slightly to resemble stones, then attach them around the door.

### **Step 5: Decorating with Enchanted Cream®**

Put the remaining cream into a piping bag fitted with a Wilton #1M piping tip. Pipe a beautiful rope border or small rosettes along the top edge of the cake. If you have enough cream left, you can also pipe a shell border along the bottom edge using the #1M tip.

### **Step 6: Decorating with Deco Melts**

Melt the FunCakes Deco Melts according to the instructions on the package in the microwave and dip the stems of The Baked Studio dried flowers into the melted coating. Place everything on a baking sheet lined with parchment paper and let it set in the fridge. Decorate the cake with the flowers by inserting them into the piped border and add some Party Deco Butterflies in between for an extra whimsical touch.
