## Step 1: Make the baking mixes

Preheat the oven to 180°C (hot-air oven 160°C). Prepare 500g Mix for Cupcakes and 200g Mix for Buttercream according to the instructions on the packaging or in the basic recipes for cupcakes and buttercream. Finally, add some spiced nuts to the cupcake batter. Put the batter in a 20 cm baking tin and bake for an hour. Let cool completely on a wire rack. Divide the buttercream into two portions and season with the speculoos and orange flavouring paste.

Tip: It is also very nice to crumble spiced nuts and mix them into the butter cream.

## Step 2: Roll out the marzipan

Cut the cake in half twice and fill with the two flavours of buttercream and spread the cake all around with buttercream. Knead 750 grams of blue marzipan very well, roll out on a work surface dusted with Magic Roll-Out Powder and line the cake with it. Cut away the excess marzipan.

## Step 3: Decorating the cake

Cut the mitre from the puzzle sheet and lightly grease the back of the paper with Crisco and place it on the red marzipan. Cut out the mitre using the cutting wheel. Similarly, make the beard from white marzipan, the cross on the mitre from white marzipan coloured with golden yellow food

colouring and the face from white marzipan coloured with ivory food colouring. Draw a face with the edible black colouring pen. Place the Sinterklaas on top of the cake.

#### **Step 4: Make the houses along the cake**

Colour the windows of the houses silhouette on frosty sheet yellow with the edible colouring pen and carefully cut out the silhouette. Remove the plastic backing from the frosty sheet and stick the silhouette around the cake with piping gel. Decorate the top of the cake with spiced nuts.
