Step 1: Bake the FunCakes Cookies

Knead the FunCakes Cookie Mix, butter, and egg into a dough. Wrap the dough in a plastic wrap and let it rest in the refrigerator for at least 1 hour.

Roll the dough out on a floured surface to about 2-3 mm thickness. Use the round cookie cutter to cut out circles and place them on a baking tray lined with FunCakes parchment paper.

Bake in a preheated oven at 180°C/350F (160°C/320F fan) for 8-12 minutes until lightly golden. Let

the cookies cool completely.

Step 2: Prepare the FunCakes Deco Melts

Place the FunCakes Deco Melts Dark Chocolate Flavor in a microwave-safe bowl. Microwave at 500W for 15-20 seconds at a time, stirring in between, until fully melted.

Step 3: Assemble the Rocky Road

Line the base of the baking pan with FunCakes parchment paper and line the sides with acetate foil. Tip: dampen the sides or use Bake Release Spray for better adhesion.

Break the baked cookies into pieces and stir them into the melted Deco Melts. Optionally, add Mini Marshmallows, raisins, and M&M's or Smarties.

Pour the mixture into the pan and gently press it down. Decorate the top to your liking.

Let the Rocky Road chill in the refrigerator for about 30 minutes, then store at room temperature.
