€2.39

Ingredients

- 500 g FunCakes Mix for Cookies
- FunCakes Sprinkle Medley Alphabet
- FunCakes Deco Melts Red
- FunCakes Deco Melts Yellow
- FunCakes Deco Melts Orange
- 1 egg (approx. 50 g)
- 150 g unsalted butter
- Jar of apricot jam

Necessities

- FunCakes Parchment Paper Sheets
- FunCakes Disposable Decorating Bags
- Wilton Wide Glide Rolling Pin 50 cm
- Wilton letter and number cookie cutters of your choice
- Sieve
- Brush

Step 1: Prepare the dough

Prepare 500 g FunCakes Mix for Cookies as indicated on the packaging. Divide the dough into 6 pieces. Colour 5 pieces with different FunCakes Food Colour Gel of your choice. Wrap the dough in cling film and leave it to firm up in the refrigerator for 1 hour.

Step 2: Preheat the oven

Preheat the oven to 180°C (convection oven 160°C) and line a baking tray with parchment paper.

Step 3: Roll, cut and bake the cookies

Briefly knead the chilled dough until smooth and roll it out on a lightly floured work surface to a thickness of approximately 2-3 mm. Cut out letters and numbers and place them on the baking tray. Bake the cookies for 9-12 minutes until fully baked. Allow them to cool completely on a flat surface.

Step 4: Decorate with apricot jam

Heat the jar of apricot jam in the microwave and press it through a sieve using the back of a spoon. This will create an apricot glaze to brush onto the cookies. Brush some of the cookies with apricot jelly and decorate them with the FunCakes Sprinkle Medley Alphabet.

Step 5: Dip in Deco Melts

Melt the Deco Melts in the microwave according to the instructions on the packaging and dip some of the cookies into the melted Deco Melts. Immediately add some sprinkles and leave to set in the refrigerator for 5 minutes.

Step 6: Finishing touches

Put some melted Deco Melts into a piping bag, cut off a small tip and drizzle over some of the cookies. Leave these to set in the refrigerator as well.
