Step 1: Bake the Christmas tree cake

Preheat the oven to 180°C (hot-air oven 160°C). Process the ingredients at room temperature. Make 500 g of the FunCakes Baking Mix for Cupcakes with 250 g (cream) butter -and 5 eggs (250 g) as indicated on the package. While mixing, add some FunCakes Flavourpaste Raspberry to your liking. Finally, place the FunCakes Chocolate Chunks White through the batter.

Put the batter in the greased Wilton Cake Pan Christmas Tree and bake for about 60 minutes. Leave to cool on a cooling rack after baking.

Step 2: Making sugar paste decorations with the FunCakes Sugar Paste

First allow the sugar paste to reach ambient temperature before processing. Then roll out the FunCakes Sugar Paste Pink by first kneading the fondant firmly until it is smooth and elastic. Sprinkle the work surface with a little sugar baking powder and roll out the fondant with the Wilton rolling stick into an even round shape (2-3 mm thick). Turn the sugar paste a quarter turn each time to avoid sticking.

Using the Merry Christmas cutter, cut out the text. You may have to cut away some sugar paste 'in between' the letters so that you get nice gaps between the letters.

Then colour the FunCakes Sugar Paste White with the FunCakes Edible Gel Dye Bright Green. Do this by adding the desired amount of food colouring to the fondant and knead well until the colour mixes well. Keep kneading until the desired result is achieved. Haven't reached the desired colour yet? Then add small amounts of food colouring until the colour is achieved!

Then roll out the white, green and pink sugar paste and cut out different sizes of snowflakes with the PME Snowflake Plunger Cutters.

Step 3: Prepare the FunCakes mix for Buttercream

Process the ingredients at room temperature. Mix 150 g of the FunCakes Mix for Buttercream with 150 ml water, beat the mixture with a whisk and allow the mixture to set for at least one hour at room temperature. Then beat 250 g unsalted butter in about 5 minutes until soft. Add the mixture to the butter in portions, mixing completely each time before adding the next portion. Mix until smooth (approx. 10 minutes).

Divide the buttercream between 3 bowls. Flavour 2 bowls to your own taste with the FunCakes Flavouring paste Raspberry. Colour 1 bowl with the raspberry buttercream with the FunCakes Dye Gel Pink, so the buttercream becomes pinker. You do this by adding the desired amount of food colouring to the raspberry butter cream and stir well until the desired colour is achieved.

Step 4: Pipe rosettes of the buttercream onto the Christmas tree cake

Put each colour separately in a piping bag with Wilton's #1M, #4B and #1B piping nozzles. You can do this easily by putting the piping bag with nozzle in a glass, then fold the piping bag around the glass and placing the buttercream into the piping bag. Using the buttercream, pipe rosettes and tufts on the cake however you like.

Step 5: Decorate the Christmas tree cake with the sugar paste decorations and sprinkles

Place the Merry Christmas fondant decoration and the sugar paste snowflakes on the cake. Then decorate with the different sprinkles, for example the FunCakes Mimosa White, FunCakes Musket Seed Light Pink, FunCakes Sugar Pearls Medium Pearl Pink and FunCakes Snowflakes White.

Step 6: Serve your Cheerful Christmas Tree Cake during Christmas and enjoy!
