- FunCakes Rolfondant Denim Blue 250g
- FunCakes Foamondant Yellow 250g
- FunCakes Rolfondant Red 250g
- FunCakes Edible Stick Black
- Bag of ginger cookies 'kruidnoten'
- 375g soft unsalted butter
- 33 + 300 ml water
- 5 eggs

## Supplies

- FunCakes Cake Ribbon Black 25mmx20m
- FunCakes Cake Dummy Round Ø20 cm x 10 cm
- FunCakes Cake Drum Round Ø25 cm - Red
- Patisse Cake Saw 31cm
- Patisse Cake Rack Ø32cm
- Patisse Cookie Cutter Star Set/5

- Wilton decorator preferred spatula
- Wilton Decorating Brush Set/5
- Wilton rolling stick 50cm
- PME Workboard Non-Stick Medium 30x25cm
- PME Extra Deep Round Baking Mould Ø 12,5 x 10cm
- PME modelling tool knife

### **Step 1: Make the FunCakes mix for Biscuit and the FunCakes mix for Buttercream**

Make 330 grams of FunCakes mix for Biscuit Deluxe and 300 grams of FunCakes mix for Buttercream, as indicated on the packaging. Preheat the oven to 175°C (hot air oven 160°C). Spray the baking tin with FunCakes baking spray. Spread the batter into the baking tin and bake the biscuit for about 30-35 minutes until done.

After baking, dump the biscuit on the Patisse cake rack to cool. While cooling down, flavour the buttercream with the FunCakes flavor paste speculaas and FunCakes speculaaskruiden, to your own taste. After the biscuit has cooled, place the biscuit in the fridge.

### **Step 2: Cut the biscuit twice with a cake cutter**

After the biscuit has cooled, cut the biscuit twice with a cake saw. Fill and spread the cake all around using the Wilton decorator preferred spatula and prepared buttercream. Then place the entire cake in the fridge.

### **Step 3: Line the sponge cake with FunCakes Rolfondant**

Take a non-stick work board and sprinkle it with sugar baking powder. Use a rolling stick to roll out the fondant.

Turn your fondant each time, so it doesn't stick to the rolling stick. After rolling, you can cover the FunCakes cake dummy with the FunCakes denim blue fondant. It's incredibly important that all the fondant taken out of the packet is then placed under a tray so it doesn't get dry.

Then take the cooled biscuit out of the fridge and cover it with the Denim Blue fondant, after covering the baked biscuit you can put it back in the fridge.

Next, roll out the black FunCakes fondant and don't forget to use sugar baking powder. After rolling, cut out various house shapes using the modelling tool knife (if you find it difficult, you can use one of our house cutters or moulds).

After making the fondant houses, stick the shapes around the cake dummy using FunCakes edible glue. Then roll out the yellow FunCakes fondant with sugar baking powder sprinkled on top.

# de leukste taarten shop

After rolling out, cut small squares with the modelling tool knife. After making the squares, stick the pieces onto the black fondant houses with edible glue, as windows. In addition to the squares, cut several little stars from the yellow fondant with the knife. You can also use a star cutter or mould for this.

Keep the stars covered on the work surface, e.g. under a plastic container. Take the lined biscuit from the fridge and place the cake on the Funcakes cake dummy with a lick of buttercream underneath (so it sticks together). Grab the yellow roll fondant stars and stick them onto the lined biscuit with the edible glue, according to your preference.

## **Step 4: Make the sculpted figures**

To make the modelled figures, knead the white FunCakes rolling fondant and use it to sculpt a moon and clouds. Also take out the blue, yellow and red fondant to mould the presents on top of the cake.

Place all figures in the right places with the edible glue. As a final decorating step, roll out the white and red fondant, cut the Saint Nicholas figure from the piece of fondant with the modelling knife. Stick all the details together and attach the figure on top of the cake layer with edible glue. Use FunCakes' black edible marker to draw black lines on the St Nicholas figure as a finishing touch.

## **Step 5: Place the cake on the FunCakes Cake Drum**

Place the entire cake on the round FunCakes cake drum after you've smeared a blob of buttercream

# de leukste taarten shop

on the red cake drum so it doesn't move. Cut the black FunCakes cake ribbon to size so you can stick it around the cake drum as a border.

As a last step, sprinkle gingerbread cookies 'kruidboten' on and around the cake. You can also attach the kruidnoten with edible glue.
