## Step 1: Make the cookie dough

Ensure the ingredients are at room temperature. Knead 500 grams of FunCakes Cookie Mix, 150 grams of butter, and 1 egg into a dough. Let it rest in the refrigerator for at least 1 hour.

## Step 2: Line the quiche pan

Preheat the oven to 180°C (convection oven 160°C). Spray the quiche pan with baking spray. Roll out the cookie dough on a floured work surface to a thickness of about 3 mm. Place the rolled dough in the quiche pan, press it against the edges, and remove any excess dough (you can easily freeze and save it for another time).

## Step 3: Bake the dough

Cut a piece of baking paper and place it on the dough bottom. Place the baking beans on top and bake the base 'blind' for 20 minutes. Then, remove the beans and paper and bake the base for another 5 minutes until it turns golden brown. Note that baking times may vary per oven! Let the base cool for half an hour, then remove the rim. Allow to cool completely.

## **Step 4: Bake the puff pastry triangles in the oven**

Do not completely thaw the puff pastry. Cut out 8 beautiful triangles with a sharp knife. Place the triangles on a baking tray lined with baking paper and prick them with a fork. Place another sheet of baking paper on top with something heavy, like an extra baking tray, to prevent the puff pastry from rising during baking. Bake the triangles at 200°C in the oven (convection oven) for about 15 minutes and let them cool.

## **Step 5: Start making the Enchanted Cream®**

Mix 75 grams of FunCakes Enchanted Cream® Mix, 50 ml of skimmed milk, and 50 ml of water, and beat on high speed for 3 minutes. In a separate bowl, mix 200 grams of FunCakes Pastry Cream Mix with 500 ml of water, and whisk until smooth. Let it stand for 10 minutes. Then, mix 2/3 of the Enchanted Cream® into half of the pastry cream and transfer it to a piping bag with a 1M tip. Store in the refrigerator until ready to use; this is Swiss cream. Use the remaining Enchanted Cream® for decoration and the remaining pastry cream for filling.

## **Step 6: Make royal icing for the puff pastry**

Prepare 250 grams of FunCakes Royal Icing Mix with 30 ml of water and beat on low speed until it forms a firm white mass. Then, color it pink as desired. Thin the royal icing with a little water until it reaches yogurt-like consistency. Transfer it to a piping bag, snip off a small corner, and generously coat the puff pastry triangles with pink icing. Let them dry completely!

## **Step 7: Pipe the cake**

Spread the remaining pastry cream over the cookie base, smooth it out, and make gentle marks with a knife to outline 8 points. This will guide where to pipe the Swiss cream. Take the Swiss cream piping bag out of the refrigerator and pipe it onto the marked points in a zigzag motion. Carefully place the pink puff pastry triangles on top. Transfer the remaining Enchanted Cream to a piping bag with a 2D tip and pipe a rosette on each triangle. Garnish with nonpareils and flags.
