Necessities

- House of Marie Mini Baking Cups pk/60
- PME Daisy Marguerite Plunger Cutter set/4
- FunCakes Decorating Bags 41 cm pk/10
- Wilton Recipe Right® 24 Cup Mini Muffin Pan
- Wilton Decorating Tip Round #1A
- Wilton Decorating Tip #2D Dropflower Carded
- Wilton Decorating Tip #032 Open Star Carded

Step 1: Prepare the Cupcakes

Place the House of Marie Mini Baking Cups in the Wilton Muffin Pan and preheat the oven to 180°C. Prepare the cupcakes using the FunCakes Mix for Cupcakes according to the instructions on the package. Bake them for 12-15 minutes until done. Let the cupcakes cool completely.

Step 2: Make the Swiss Meringue Buttercream

Prepare the FunCakes Mix for Swiss Meringue Buttercream as indicated on the package. Make one portion, which is a quarter of the package.

Divide the buttercream into four bowls. One bowl only needs a few tablespoons of buttercream. Color this small portion light yellow with a few drops of FunCakes Food Colour Gel Yellow. Color one bowl dark pink and one light pink, both using the Food Colour Gel Pink—adding more coloring to one for a deeper shade. Leave the last bowl of buttercream white.

Step 3: Decorating

Once the cupcakes have cooled, it's time to pipe the buttercream! Fill four FunCakes piping bags with the different colors. Use piping tip #032 for the dark pink, #2D for the light pink, and #1A for both the white and yellow buttercream.

Start with the dark pink buttercream. Hold the piping bag in the center of the cupcake, and slowly pull it upward while making a slight twist back and forth. Finish with a fondant flower, which you can make using FunCakes Rolled Fondant and the PME Daisy Marguerite Plunger Cutter set. To create a yellow center, color the fondant with Colour Mill Mango. Add a final touch of Sugarflair

Edible Lustre Glitter.

Next, use the light pink buttercream. Hold the piping bag in the center of the cupcake, pipe outward toward the edge, then complete a swirl around to form a beautiful flower. Top with a fondant flower and sprinkle some FunCakes White Nonpareils.

For the last variation, use both the white and light yellow buttercream. Start with the white buttercream, piping petal shapes by holding the piping bag at the edge of the cupcake and moving toward the center without lifting too much—this creates flatter petals instead of round dots. Then, use the yellow buttercream to pipe a dot in the center. Finish with a touch of Sugarflair Edible Lustre Glitter.
