Other materials:

- 200 gram plantaardige olie (220 ml)
- 200 ml water
- Blueberries, banana or nuts

The most delicious muffins made using an original American recipe.

Preheat the oven to 180°C (convection oven 160°C). For 12 muffins put 500 grams of the mixture, 200 grams of oil and 200 ml of water in a bowl and mix on low speed for 5 minutes to a smooth batter. Natural muffins are very tasteful, but you can also add a filling, such as bake stable chocolate, blueberries, banana or nuts.

When the batter is done, line a muffin pan with 12 paper baking cups and fill the cups with batter to just below the rim. Bake the muffins in the preheated oven for approximately 25 minutes until golden.

This recipe is made possible by FunCakes.
