Step 1: Make the cookies

Preheat the oven to 180°C (hot air oven 160°C). Process the ingredients at room temperature. Knead 500 grams of FunCakes mix for Cookies, 150 g cream butter and 1 egg into a dough. Let stiffen in the refrigerator for at least 1 hour. Roll out the dough on a floured work surface (to about 0.3 cm thickness). Cut out the cookies. Once you have cut out the cookies, gently push the bottom of the cookies up slightly at the edge with your hand so that you get an egg model. Poke holes in the cookies with nozzle 12. Bake in the center of the oven for about 12 minutes until golden brown. Let them cool well before decorating.

Step 2: Prepare the Royal Icing

Sift 450 grams of FunCakes mix for Royal Icing and mix with 55 ml water for a royal icing in stiff consistency. Beat the mix and water gently for about 7-10 minutes until the icing is white, no longer shiny and peaks can be drawn that do not recoil. If using a hand mixer, beware of jamming the mixer! Divide the icing among the various bowls and color them with the food coloring.

Step 3: Thin the Royal Icing

Using water, thin the icing in the bowls until it has yogurt thickness. Place the bowls under a wet tea towel so that it does not dry out and the resulting bubbles can come up. After 10 minutes remove the cloth and prick the bubbles with a cocktail stick. After this, fill the piping bags (with or without nozzle) with the icing.

Meanwhile also color the fondant in the desired colors.

Step 4: Pipe the icing onto the cookies

Pipe a nice layer of icing onto the cookies and spread it to the edges using a cocktail stick. For decorations that you want to flow into the icing, do so immediately with another color of icing on the wet carpet pad. This way the lines will flow into each other. If you want an icing decoration to lay on top of your cookie then let the underlayment harden before continuing with another color. For fondant decorated cookies, let the underlayment harden anyway.

Step 5: Prepare fondant

Roll out the fondant on a work surface dusted with powdered sugar and cut out different colored flowers. Make the petals by turning a small piece of green fondant into a drop in your hand, pressing it flat and using a veining tool to make the grain. Stick the flowers and leaves onto the cookies with edible glue.

Step 6: Hang cookies in the Easter branch

Put the ribbons through the holes in the cookies and hang them into your Easter branch!
