Step 1: Bake the Sponge Cake

Preheat the oven to 175°C (fan oven 160°C). Use ingredients at room temperature. Prepare 250 grams of FunCakes Mix for Spongecake Deluxe indicated on the package. Spray the baking pans with Bake Release Spray and divide the batter between the two pans. Then bake the biscuits for about 30-35 minutes until done.

Step 2: Make the buttercream

Meanwhile, prepare 125 grams of FunCakes Mix for Buttercream as indicated on the package.

Step 3: Cut the cake

Cut the sponge cake into two layers and fill them with buttercream. Apply a thin layer over the biscuit, also known as a crumb coat. Place the cake in the refrigerator for an hour to firm up.

Step 4: Colour the buttercream

Divide the remaining buttercream into three bowls. Colour one light pink, one dark pink, and leave the third white.

Step 5: Frost the cake

Use a spatula to spread the dark pink buttercream on the bottom of the cake, the light pink in the middle, and the white on the top. Then use a scraper to smooth the buttercream until the colours blend together.

Step 6: Decorate the cake

Cut a large piece of plastic wrap and spread the colours in strips next to each other on the wrap. Roll the wrap tightly and twist the ends. Cut off the bottom and place it in a piping bag with tip
